Transactive Energy Challenge Kickoff Workshop:
The Energy Mashup Lab

- **Area of Interest: Support for Transactive Interoperation and Energy Agents**
- **Functionality / Capabilities**: Leaders are experts in interoperation and agent architecture including Energy Agents, EI, OpenADR2, EMIX, TEMIX
- **Proposed Scenario**: Common infrastructure for interoperation—leverage existing standards & technology to focus on your contributions
- **Impacts/Why:** Simplify development with proven interoperation and agent framework
- **Partners Needed:** Any and all Transactive Energy partners. We are neutral infrastructure experts.
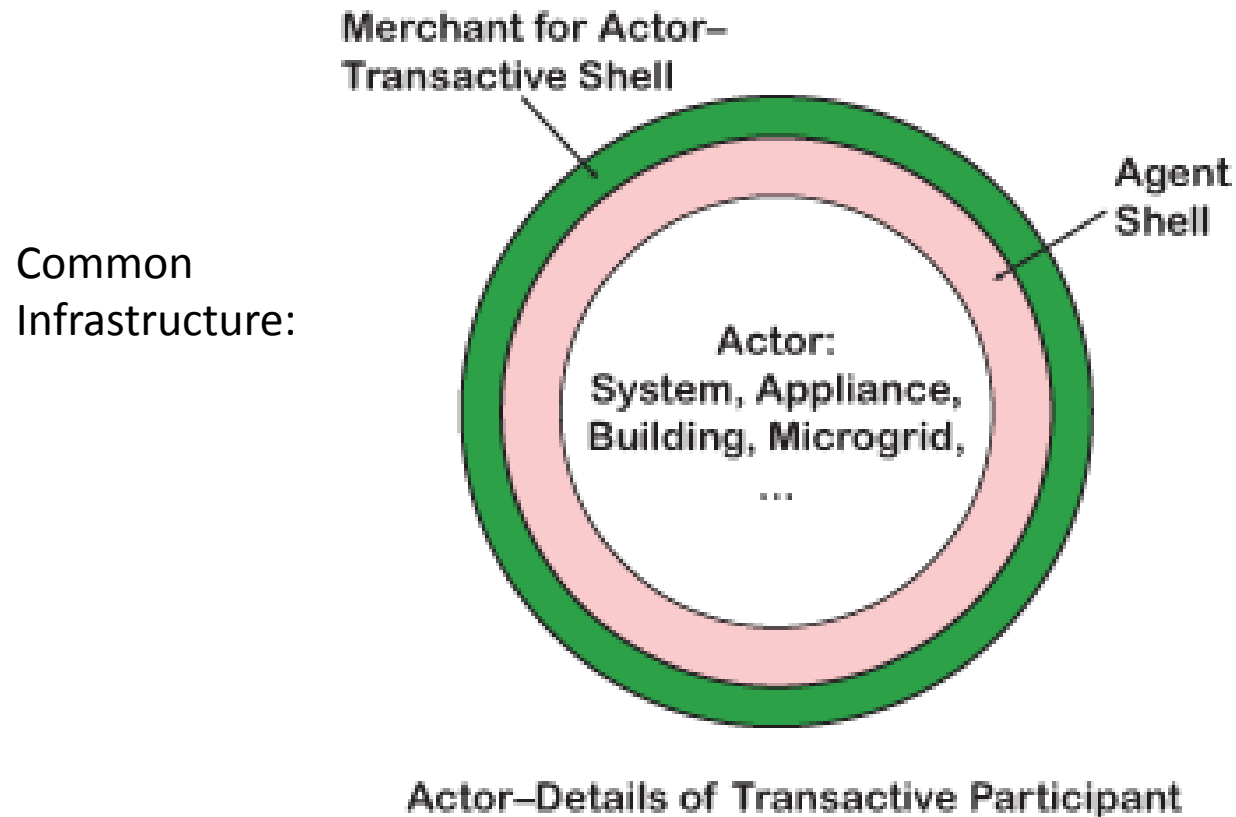

The Energy Mashup Lab
